[All Devices](#) [Diagnose](#)

This table shows a summary of all devices that have been added. It can be filtered, organized, and searched on using different criteria. To get started, you can add devices by using the Add Device button, or by using API.

Search by Device ID Device Simulator 101

<input type="checkbox"/>	Device ID	Status	Device Type	Class ID	Date Added
 You don't have any devices.					

2. Create IBM Watson IOT Device

The screenshot shows the 'Browse Devices' page in the IBM Watson IoT Dashboard. The page has a dark sidebar on the left with various icons. The main content area has a top navigation bar with 'Browse', 'Action', 'Device Types', and 'Interfaces'. A blue 'Add Device' button with a plus icon is in the top right. Below the navigation bar, the title 'Browse Devices' is followed by two buttons: 'All Devices' (active) and 'Diagnose'. A paragraph explains that the table shows a summary of added devices and can be filtered or searched. Below this is a search bar labeled 'Search by Device ID' and a 'Device Simulator' toggle switch. The main part of the page is a table with the following data:

<input type="checkbox"/>	Device ID	Status	Device Type	Class ID	Date Added
> <input type="checkbox"/>	1234	Disconnected	iot_device	Device	10 Nov 2022 00:08

At the bottom of the table, there is a pagination bar showing 'Items per page 50' and '1 of 1 page'.
